

The Village Festival is looking for a technical director/ lighting designer

Job:

Coordinate technical crew to run sound and light for Village site and venues.

Design and co-create a site lighting plan with ADs for each event.

Manage technical requirements, co-ordinate hire and advise on purchases.

Meetings throughout the year with ADs to establish lighting plan for our traveling festival.

Employment:

This is a casual position, project based with irregular hours.

Usually about 6 weeks around the festivals – starting a month before, finishing about a week after. Consideration will be given to design and development tasks at other times of the year.

2017: Main projects - Edinburgh Gardens, Falls Lorne and Marion Bay and Benalla Festival. Other smaller artistic projects linked with the Village including the World kitchen tour (Tennant Creek, Alice Springs, Canberra, Melbourne) and the Castlemaine Sculpture Experiment may require advice and assistance.

Event dates:

Edinburgh Gardens: Oct 27th till Oct 29th.

Benalla Festival Nov 11th

Falls Festivals: Dec 28th till Jan 1st

Attributes:

- Understands lighting, audio, projections and power consumption
- Energetic, keen to work as part of a creative team and open to innovative ideas.
- Creative at the core and excited about designing in an outdoor festival environment.
- Solutions-focused: flexible and ready to make decisions on the spot and adaptable to change.
- Can recruit and inspire a technical team, including mentoring less experienced members

The Village is a grass roots festival with limited funds for technical equipment, so flexibility and creative use of resources are a must.

The Village is committed to sustainable practices and is interested in simple low tech/low power solutions.

The Village site design for each event is created by the ADs in collaboration with the technical director and Village artists and crew.

Together with the AD's you will have to balance Village assets/standards, visual aspirations and logistical constraints to create a visually appealing and workable site layout.

If this sounds like you and you would like to take on this challenge, contact The Village through Stuart and Suzanne:
